Dear Red:

The enclosed package, including letter addressed to me, was sent to my former home in Washington by Air Mail and forwarded to me yesterday. Mr. Arthur Bunker, referred to in the first line of the letter to me, is President of the Climax Molybdenum Company, and younger brother of Ellsworth Bunker who was Ambassador to Argentina and to Rome, as you well know.

I have advised Miss Sisto of my retirement from government service and have told her I would forward this information to you for whatever action which seemed to be appropriate and proper. Pass it on to the right person and do not do any unnecessary work yourself.

Best wishes, as always

Sincerely,

STATINTL
